## "First Wednesday" - 6th August

### Cheese and Wine Evening

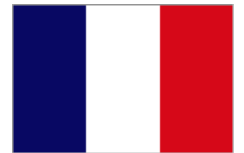

To celebrate the eventual return of our aircraft from our recent fly out across Europe, we're holding a free cheese and wine event.

at one point due to weather and technical issues, we had aircraft stranded in Austria, France and Germany, so

come along and enjoy some cheese and wine gathered from all three regions.

There's also a short talk and demonstration from log book aero. This computerised system allows you to record flights and link it to maps and photos, to help you recall such momentous flights in years to come!
